

ige says it's...

FOUR PRODUCTS IN ONE!!

ELIMINATES SENSITIVITY
DISINFECTS PREPARATIONS
MAXIMIZES BOND STRENGTH
REDUCES MICROLEAKAGE

MEET DR. JOE PELERIN,
THE INVENTOR OF
HEMASEAL & CIDE.

**It desensitizes. It disinfects.
And studies show that it enhances bond
strength while preventing microleakage.**

"I've always known that Hemaseal & Cide with 4% chlorhexidine eliminates sensitivity, and that it's an amazing antimicrobial," says Dr. Joe Pelerin, the dentist who invented it. "Now studies by independent evaluators show that Hemaseal & Cide increases both short- and long-term bond strength ... and reduces microleakage, too." Want proof? Check out the reports at advantagedentalinc.com. Or call 800.388.6319. Proven, patented Hemaseal & Cide does more but costs less than the leading brand.
